NUMISMA

SEPTEMBER-OCTOBER, 1954 VOL. 1, No. 4

SUBSCRIPTION; 6 ISSUES FOR \$1.00

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.

TERMS OF SALE

Postage extro on orders under \$5.00. Please order by number.

Remittance must accompany order, unless purchasers have established credit with us. CASH ORDERS receive preference.

REMITTANCES FOR UNFILLED ORDERS PROMPTLY REFUNDED.

All material is UNCONDITIONALLY GUARANTEED to be as represented.

At time of mailing, all items are in stock. All offers are subject to prior sale; prices are subject to change without notice.

the Editor's desk—

Fortunately, this September-October issue of "Numismo" is on its way. Copies will not reach our subscribers until well after November. The blame for this regrettable delay can only be attributed to the two bonner months of August and September, which were among the most busy (and profitable) in our eighteen years of existence. We expect however, to get the November-December "Numismo" in the mail by Dec. 1st. As announced in a former letter to our patient subscribers and in the October "Numismotist," this house organ is now a bi-monthly subscription item, issued six times a year for the modest price of \$1.00. If you are not as yet a subscriber (and receiving this list by first class mail), we suggest you enclose an extra dollar with your next order. One "Question and Answer" in the next year might be worth much more to you than your small investment for a subscription. In addition, you can't afford to miss the many odd and highly interesting items offered for sale.

With this copy of "Numisma," you will find our price list of the new Coin Boxes and Envelopes. We are the exclusive distributors for this line, and strongly recommend that you consider keeping your collection in a cabinet, utilizing the Clarke boxes. If you prefer boxes, keep in mind that imprinted 2x2's, the long flaps distinctly bearing your name and address, are an inexpensive "must" for any collector or dealer alike.

To stay in business, we have to buy. In order to keep fine material cheap, we must pay better than competitive prices. Remember, that we only solicit merchandise that we can pay more for. We are not interested in wasting your time or ours. We particularly need the help of you, and can pay cash or will trade. Please give this listing (and comments) your most careful attention.

1. **Individual rare "type" notes, collections or hoards of C Currency.** For instance, we will pay to \$50.00 for the \$5. 25, '61 Liberty, Shield and Eagle, or \$100.00 for a top cond "Indian Princess."
2. **Individual Southern State Notes, considered rare.**
3. **Lots, Collections and/or Hoards of "Obsolete" or Broken I Notes.** Sheets, Proof notes and interesting vignettes are wanted.
4. **Lottery tickets; broadsides, advertising media.** We have bo a lot of this material, and want even more.
5. **Canadian "Legal Tender" Paper Money.** Our customers v early Chartered Bank Notes, but even some of the late, s bills are of interest. Notes of the Bank of Montreal, Ban Nova Scotia, Bank of Toronto, Royal Bank, etc., of mo vintage, are only wanted in crisp, perfect condition. Bank Canada, 1935 "French" bills, \$1. to \$25., are also desired, only crisp. **Find out why dealers send us their entire stock this material.**
6. **Individual rarities, lots or collections of CANADIAN "Obso or Broken Bank Notes.** While we prefer Bank issues after 1 in this series, it must be remembered that most issues of Farmers Joint Stock Banking Co., Henry's Bank, Zimmer Bank, Colonial Bank of Canada, International Bank of Can Bank of Clifton, and Bank of Western Canada, are not sca much less rare. Condition is important here, but not if the n are rare. **FIND OUT OUR PRICE FIRST!**
7. **Lovett 1861 C.S.A. Cents.** On page 231, the new, 8th edi of the "Guidebook" lists this coin in copper-nickel at \$100. will pay from \$165. to \$200. for each specimen offered. C mensurate prices paid for the bronze, silver and gold ones.

The November issue of the "Numismatist" will again dis our "When you have—" ad on the inside front cover. Find what else we need, and then drop us a line.

Let us hear from you . . .

THE QUESTION FORUM

We invite our readers to submit any questions or problems relating to Early American or Canadian Coins, Medals, Tokens, Literature, etc., inclu Patterns, Restrikes and similar material. The questions of most general int will be answered in detail here; others will receive written replies on recei a stamped self-addressed envelope.

Ques. Why do the mint reports say none were coined of some d of U. S. coins I have, such as the 1823 cent, 1824 quarter and di etc.? R. L., N.Y.C.

Ans. So far as known, because those coins were not struck in year of date. The best example of how this works is provided by 1845 "O" Quarter Eagles. None were made that year; but on Jan. 1846, 4000 Quarter-Eagles were coined. Investigation shows that New Orleans Mint received its first \$2½ dies for 1846 on Jan. this proves that the above 4000 had to be dated 1845. In a few lated instances (1849 \$20, 1870 "S" Silver Dollar and \$3 g 1838-O Half-Dollar) the coinage was of a pattern nature or (as v the 1884-5 Trade Dollars and 1913 Liberty head Nickel) a piece private enterprise. A monograph will be shortly published by the C Collector's Journal explaining every instance of this sort of thing

Ques. Adams-Woodin lists as No. 26 the 1804 dollar struck copper, calling it R15 or "unique." Is this an original or a restri and where is it? P. M., Boston, Mass.

Ans. Neither original nor restrike, this piece is a fine elect type copy made by Mr. Dubois at the Philadelphia Mint c. 18 and by him marked COPY on reverse. It was taken from the Mil plain-edged restrike, as are the hundred or so other electoty known. This particular specimen was obtained by a Dr. Spiers ab that time, and went with his collection to the Society of Califor Pioneers (c. 1877); this collection, an amazing accumulation rarities and trash, was long stored in the San Francisco Mint,

sold to Fred Huddart in 1906. Most of these coins subsequently to Waldo Newcomer of Baltimore, including this "1804". The known Texas dealer listed the coin by error as genuine and the San Francisco Mint in his inventory of the 1804's (appendix's reprint of Haseltine's Type Table, 1927), not knowing that it had been identified as an electrotype nearly twenty years earlier. Newcomer did not know it when he wrote in 1913, either. The piece has since passed through Mr. Newcomer's son to a Baltimore collector, who now prizes it for its history.

Ques. I have two or three Continental notes printed on blue paper and without signatures or numbers. Are these reprints, counterproofs or what? Have they any value? *J. S. P., Portland, Me.*

Ans. So far from being counterfeits, these are original specimens actually made by order of the Continental Congress and supplied to the public to insure quick detection of counterfeits. Examples are known of all issues except that of May 1775, occasionally in uncut sheets or strips. Those most frequently seen are of the September 1778 issue. It would be difficult to place a value on them in dollars since they are rarely encountered and even more rarely offered for sale, but it is safe to say that there were not more than a few dozen of each issue and denomination.

Ques. I bought a 1796 over 95 half dime from Mr. — (a well known midwestern dealer—Ed.). The 6 is recut but I cannot see if it is over a 5. Is it a real overdate? If so, why is the design different from the 1795? *P. L. D., Topeka, Kans.*

Ans. There are two varieties of the 1796 half dime, both of which have been sold as the overdate. The only one deserving the name is Valentine 2, in which the 6 does not touch the bust, but the upper curve and point of a 5 is visible behind the 6 and touches the bust. On reverse there is a berry under right part of E in UNITED, and the die is usually shattered, accounting for the rarity of the variety. (Valentine's description is incorrect because he never saw one.) The other, commoner, variety has 6 recut but lacks the features described. The design of the half dime was actually changed in October 1795, like that of the dollar, at the behest of the Treasury who wanted to improve the design of all the coins by having Gilbert Stuart's draped bust of Liberty on them. However, the change for half dimes came until next March when these were struck, and a 6 was punched over the 5 in the unused obverse die.

Obsolete Bank Notes. ILLINOIS. Chicago. \$1. 1852. BANK OF CHICAGO. No. 1. Center vignette the original of that on the \$10. Sept. 2, '61 CSA note. Fine.	\$4.50
